

Cancer survey for children and young people and their parents or carers

Help us improve cancer care

NHS England may invite you to take part in the cancer survey for children and young people and their parents or carers. This is part of a national programme to improve care and patients' experiences.

Your views are important to us

It is your choice whether to take part in the survey, and your answers will be kept confidential.

If you are to be invited to take part, the hospital will send your contact details to an independent research organisation who is carrying out the survey on behalf of NHS England.

If you do not wish to take part, or have any questions about the survey, please contact:
